To Whom It May concern:

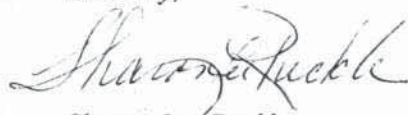

This is a letter of recommendation for Dana Sinclair with regard to her ability as a Captain and Training Instructor.

As one of her past students, I found her to be very knowledgeable regarding the many aspects of class instruction which included boating safety, emergency procedures, radio etiquette and some basics of boat handling.

In regard to her ability to operate a vessel, I was very impressed. She was able to come aboard my 44 foot boat for the first time and maneuver it as though she had been operating it for years.

It is with confidence that I can recommend Dana Sinclair as a competent on any vessel for which she is qualified to operate as a licensed Captain.

Sincerely,

Sharon Lee Ruckle
